(You can go to www.alienscalpel.com to see the evidence for yourself). Discovered was that these implants have an exterior shell of meteoric metal, or metal from space! Inside is nano technology operating at a clock speed of 317 GHZ (100 times faster than any computer in existence today) But the kicker, the implanted device alters your DNA! Further interviews with many UFO abductees has shown evidence of a hybrid breeding program taking place.

Now let's go on to Tom Horn and Chris Putnam. They have co-authored two incredible books; Petrus Romanus and Exo Vaticanus. You will want to read both of them, but our focus right now is on the second book. Tom and Chris were able to visit the Vatican's observatory on Mt. Graham in Arizona.
